

REGISTRATION REQUIREMENTS FOR THE 5TH ANNUAL HAVASU TATTOO SHOW

THE FOLLOWING OUTLINES THE REGISTRATION REQUIREMENTS
OF THE HAVASU TATTOO CONVENTION.

DEMAND

- The venue where the convention is being held is limited in size. Approximately 34 booth spaces are being sold and are open to Tattooing & Non-Tattooing vendors. The demand for booths will definitely exceed the supply of booths available and spots will sell out.
- Registration is open to all types of Body Art Shops and Vendors worldwide.
- Registrations are being delivered to over 500 Shops and Vendors.

HOW TO ENSURE YOUR SPACE

- In order to maintain the highest level of quality for attending artists and vendors, booths at the 2012 show will be strictly limited to 34 spaces. To secure your space at the Havasu Tattoo Show 2012, we recommend the following:
 - Fill out all forms Entirely and Accurately
 - Include the proper payment method
 - Mail/fax before registration deadlines

REGISTRATION DEADLINE IS MARCH 15TH, 2012!

GENERAL REQUIREMENTS OF THE 5TH ANNUAL HAVASU TATTOO SHOW

THE FOLLOWING OUTLINES THE HEALTH AND STERILIZATION
REQUIREMENTS OF THE HAVASU TATTOO SHOW.

LICENSING AND IDENTIFICATION

• All body arts practiced at the HTS must be performed by artists licensed to practice at the convention. • A minimum age requirement of 18 years old will be enforced for all tattooing and body piercing. Proof of I.D. is required, and must be copied with all HTS Consent forms. Consent forms will be made available throughout the convention.

WORKSTATION REQUIREMENTS

• Barrier products are required. Please work as safely as you can. All tattoos performed at the convention should be bandaged prior to allowing the customer to leave the booth. Bandages may be removed for the purpose of entering the tattoo contests but should only be done in a tattoo booth with the assistance of the artist. Tattoos that are fresh and dripping bodily fluids pose a threat of cross contamination. Please be aware of this throughout the weekend and bandage your customers cleanly and safely.

STERILIZATION PROCEDURES

All needles used must be autoclaved, date stamped, single use, and disposed of in a sharps container after use. Each station will be provided with sharps containers and waste receptacles for disposal of single use equipment.

CLIENT AND PRACTITIONER HEALTH RELATED INFORMATION

Aftercare instructions will be available at the copy area. If you prefer you may bring your own, please make sure the client gets them and knows what to do. No clients should receive body art if they are judged to be intoxicated. The responsibility is on the artist. Body Piercing of genitals or nipples must be screened from public viewing. If you plan to offer this service your station must include an opaque screen for such purposes. You are obligated to bring this yourself; it is not included with your booth registration.
